

# SYMPTOMS TO REPORT

We would like you to watch during your pregnancy and report if any of the following symptoms should occur. Some of these symptoms may be normal during pregnancy, but to provide you with the utmost care, we would appreciate you letting us know if you experience any of the following:

- 1 ❖ •Vaginal bleeding or spotting
- 2 ❖ •Sharp or continuous abdominal pain
- 3 ❖ •New or persistent swelling of hands or face
- 4 ❖ •Persistent headaches or sudden visual changes (blurry vision or visual spots)
- 5 ❖ •Decreased fetal movement (after 22 weeks)
- 6 ❖ •Severe persistent nausea or vomiting
- 7 ❖ •Gushing or leakage of fluid from your vagina (increased mucous discharge is normal)
- 8 ❖ •Fever greater than 100.4 degrees
- 9 ❖ •Pain or burning when urinating

***\*\*NOTE\*\* Always call our office number first. A nurse midwife on call or the physician on call will return your message and form a plan of care with you.***
